OPTIGROW TRACE ELEMENT

Optigrow Trace Element Monitoring is carried out by analysing liver samples collected from livestock sent to the works;

1. Consult your veterinarian who will supply submission forms for you to complete.
2. Send your completed form to the meat premises with your transport carrier. Please ensure owners name is correct to match kill sheet information.
3. To further ensure samples are collected you or your veterinarian should ideally fax the completed form at least 24-48 hours prior to the stock being sent to the works.
4. Liver samples will be collected and sent to New Zealand Veterinary Pathology Ltd for analysis.
5. Results will be sent to your veterinarian.
